Duration of the project		2-3 years		

PROJECT DESCRIPTION:
<p>Objectives</p> <p>The Avicenna Tajik State Medical University is one of the most influential institutions of high education of the Republic of Tajikistan and according to the requirements of the population of Tajikistan, preparation of highly qualified specialists and improving the health state of the population plays a great role since 1939. In 1952 the institute was named after Avicenna and in 1990 for the achievements in the field of training highly qualified personnel received the International Prize of the "News" agency, Abu Ali Ibn Sino. In 2008 the University was awarded the International Prize of "European Quality". At the present time, the university has a total of 10372 students, including 8930 undergraduate students, 609 clinic residency and internship students, 180 postgraduate students through PhD programme. From this number, there are 1110 foreign undergraduate students from 14 countries - India, Russia, Kazakhstan, Kyrgyzstan, Turkmenistan, Uzbekistan, Latvia, Azerbaijan,</p>

Afghanistan, Iran, Yemen, Denmark and the United States. There are 680 professors and teachers working in ATSMU, including 84 doctors of science and 230 candidates of science. At the university, the educational process is delivered based on 5 specialties- «1-790101 – Health care», «1-790102 – Pediatricians», «1-790103 –Public Health», «1-790107 - Stomatology» and «1-790108 - Pharmacy». Also, the university prepares specialists from foreign citizens proving bachelor's degree based on "Health care". The International relations department of ATSMU works in cooperation with international organizations and foreign embassies trying to develop other international relationships. In 2017, the university has more than 104 international cooperation agreements with foreign scientific, educational institutions.

The main mission for the university is “To provide nationally relevant and internationally recognized medical education for the training of competent specialists and assistance in developing the potential of scientific activities in the field of health care”.

In order to provide relevant medical education on national and international level, the priority has been given to the implementation of Quality Management System which will help us to provide quality medical education through qualified employees. Due to that we are applying for the Erasmus + program in order to:

Ensure quality assurance of medical education through the establishment of a Quality Management System (QMS) based on international standard ISO 9001

Activities

Assessment of university preparedness for QMS implementation

- * Analysis of nowadays situation of quality education delivery within the university
- * SWOT and PEST analysis delivery
- * Development of "Policy in the field of quality” based on the analysis results
- * Evaluation of identified deficiencies after the analysis

Education and training on Quality Management System implementation

- * Staff training on the principles of the system of quality management
- * Training of specialists on internal audit

Implementation of Quality Management System

- * Adjustment of the educational process based on one of the models of QMS
- * Management of documentation of all processes of the QMS implementation
- * Introduction of starting elements of QMS to the management structures (centers, departments)
- * Preparing the University for an **international certification** according to ISO 9001-2015

Results

Based on an objective and activities of the project mentioned above, we are looking for partner universities in Erasmus+ program countries and partner countries for joint project **on Quality Management System implementation**. We are looking for HEIs which already implemented the system and experts on that, HEIs who are willing to implement that system in the nearest future and HEIs who can support with one of the activities above mentioned, so we can do it together by making an impact on quality education delivery in HEIs.

If you are interested in the proposed project, we would be grateful to work jointly with **YOU** on that project. For more information feel free to contact us through mentioned contact info above.
