Motivation for participation in the contact seminar	European University of Tirana (UET) is a leading higher education institution in Albania, established in full compliance with the requirements and criteria of the Bologna Charter, including study programmes in the three levels of study: BA; MA and Doctorates. The European University of Tirana seeks to cooperate with universities in the UK in order to develop projects in the framework of the Erasmus+ programme, particularly for KA1 on mobility of staff and students and KA2 on strategic partnership as well as on KA3 on policy reform in the fields of: social sciences and education; communication and public relations; economy and information technology as well as law. As the Director for Research and Development I am in charge of networking and partnership development and therefore this workshop is highly relevant to my work and university.

Name, surname	Adnan Rahimic *
Institution	University of Sarajevo
Work title/position	International Relations Officer
Email	adnan.rahimic@unsa.ba
Website	www.unsa.ba
Motivation for participation in the contact seminar	The University of Sarajevo is oriented towards international cooperation, building bridges between cultures, and establishing partnerships with universities from all over the world. As a university which participates in many international programs, primarily in the ones coordinated from the European Commission (Erasmus Mundus, Tempus, Erasmus+) this would be a good opportunity to establish contacts and form networks for mutual cooperation for future activities in Erasmus+. University of Sarajevo has variety of study fields and programmes to offer, as well as well experience in credit mobility and capacity building projects, which could be of interest for EU partners. International Relations Office is engaged in project management for many international projects and academic exchange, so establishment of the initiative for inter-institutional agreements could be an benefit.

Institution	University of Copenhagen
Work title/position	Doctoral candidate and lecturer
Email	martmads@hum.ku.dk
Website	http://tors.ku.dk/ansatte/?pure=da/persons/112597
Motivation for participation in the contact seminar	<p>For appr. 15 years I have taught BCS at various institutions of higher learning (University of Copenhagen since 2007) and was instrumental in the initiation of exchange of students, through Erasmus+ between the Universities of Belgrade and Copenhagen. The first students began their studies in September 2015 under the auspices of this programme. (Danish students of Serbian go to Belgrade. Serbian students of Danish come to Copenhagen.)</p> <p>I wish to strengthen and initiate connections between The Balkan Studies Programme at University of Copenhagen (UCPH) and the programmes at universities in Serbia, Montenegro, Bosnia & Hercegovina and Kosovo, which deal with the languages Bosnian, Croatian, Serbian and Montenegrin. I also wish to examine the possibilities of training programmes for staff (Staff mobility - training)</p> <p>I wish to investigate the possibility of cooperation with universities in Albania and Kosovo with a view to studies of Albanian language, which unfortunately is not taught at UCPH.</p>

Website	
Motivation for participation in the contact seminar	<p>I am the coordinator of the undergraduate programme in Balkan studies, a language based area studies focusing on the culture and history of especially the formerly Yugoslav countries. We are sincerely convinced that our students should stay for at least one term in one of the countries they are studying, both to familiarize themselves with the region and in order to strengthen their knowledge of the language they are studying (most often that will be Bosnian/Croatian/Serbian, but we would also be very interested in possibilities for studying Albanian). Moreover, our department welcomes guest students from Serbia and Kosovo.</p>

Work title/position	Doctoral student / project coordinator	
Email	kristel.vits@ut.ee	
Website		
Motivation for participation in the contact seminar	<p>"I would like to participate in the contact seminar for several reasons. As a representative of the Institute of Government and Politics of the University of Tartu, I would like to develop contacts with all participating Universities to introduce our English-language master's programmes (International Relations and Regional Studies; Democracy and Governance; Baltic Sea Region Studies). Also, I would like to discuss our new Center for IT Impact Studies which focuses on studying the impact of public e-services. The center will launch new MOOCs starting from 2016, which might be of interest to Western Balkan countries. In return, I would like to gather firsthand information about the opportunities that Western Balkan universities have to offer, so we would be able to introduce these HEIs to our students and also staff.</p> <p>I am also especially interested in building a contact network with Kosovar and Serbian Universities that might allow us to partner for student exchange in 2016 or 2017. Our IR programme has a specific course for field work in conflict areas, formerly our students have visited TRNC/RoC, Transnistria/Moldova and Nagorno-Karabakh. TRNC students have also visited University of Tartu several times in return. We would be very interested in bringing this course to Kosovo and Serbia to give our students an opportunity to learn more about conflict resolution and international management. We would also like to welcome students from Kosovo and/or Serbia in Estonia to focus on Estonian experiences regarding e.g. democratization, applying for EU membership, using ICT for improving public services etc.</p> <p>Our institute is also applying for funding from Erasmus+ to use during Spring Semester 2016 for Learning Mobility for Individuals. According to a preliminary agreement, I would be teaching in University of Belgrad, Serbia. My visit would allow me to discuss possible course ideas and expectations directly.</p> <p>In general, I see this contact seminar as an excellent opportunity to discuss further cooperation and opportunities for both student and staff mobility with the Western Balkans universities."</p>

Name, surname	Katalin Miklossy *
Institution	University of Helsinki
Work title/position	Senior Researcher
Email	katalin.miklossy@helsinki.fi
Website	
Motivation for participation in the contact seminar	I am working at the Aleksanteri Institute (Finnish Centre of Russian and East European Studies) with interest on the West-Balkans. I am also responsible for developing internationalization of higher education at the Institute, as in my position as a founding member of Teachers Academy of the University of Helsinki, with similar special task on the university level. I also lead a new Jean Monnet Module (East within Europe, granted for the period 2015-2018) and I plan to extend its scope to be involved in capacity building projects, especially regarding civic education, interdisciplinary and deliberative teaching in democratization-related courses with new Finnish methods of pedagogy. In addition, I lead a group of researchers (7) focusing on this area that could be easily mobilized in participating in capacity building projects. I want to apply for capacity building project next year so it would be very important to have the possibility to meet possible partners in person and discuss perspectives of collaboration and to network obviously.

Institution	University of Eastern Finland
Work title/position	Director of International Relations
Email	savonla@uef.fi
Website	www.uef.fi
Motivation for participation in the contact seminar	We have a number of partner universities in the Western Balkans, e.g. the University of Belgrad, the University of Novi Sad (our two institutions are members of the Campus Europae network), the University of Sarajevo, and the University of Banja Luka. A few years ago, I organised, on our Joensuu Campus, an Erasmus Mundus seminar (then Action 4) on Higher Education in the Nordic Countries in the Tea Team project coordinated by the Open Society Foundation in London. During that seminar aiming at enhancing the attractiveness of the European Higher Education Area, I learned to know several representatives of universities in the Western Balkans and have been keeping in touch with them ever since. The University of Eastern Finland would very much like to have Erasmus+ partners in these countries. We already won funding for our Erasmus+ student and teaching staff exchanges with the University of Novi Sad. We would also be very interested in cooperating with partners in the Western Balkans within the framework of Erasmus+ educational cooperation projects. We also have close contacts with universities in the Nordic and Baltic countries and would like to include partners from these countries into joint Erasmus+ projects. An opportunity to participate in the Nordic-Baltic Contact Seminar would, therefore, be of vital importance for our future success in the Erasmus+ programme. Personally, I have never visited this area, before.

Motivation for participation in the contact seminar	<p>I am very thrilled for offering this great opportunity for young generation from Kosovo, Serbia and the Baltic countries to meet, network, and collaborate on the Erasmus projects.</p> <p>I am particularly interested in this opportunity for two reasons. The first reason is that I am one of the founders and a director of the NGO Youth Empowerment Kosovo, which is based in Mitrovica. The main activities of the NGO is to engage in building peace and social, environmental, and economic activities and opportunities for youth from both north and south Mitrovica. The reason our NGO Youth Empowerment Kosovo does not differentiate north and south is because its staff is diverse and because we work with other NGOs in both south and north. The second reason for expressing my interest in this collaboration on this opportunity is because I have little knowledge on the Erasmus programme opportunities and this is therefore an innovative way to find out more so that I can apply for grants, funds, and partnerships with my NGO.</p> <p>I look forward to this opportunity and I hope I meet your needs.</p> <p>Best, F.V.</p>

Website	https://www.facebook.com/marigona.vrajolli
Motivation for participation in the contact seminar	<p>I studied Bachelor at University of Prishtina, Department of Political Science (graduated by July 2, 2015). I did graduate at Xhevdet Doda Gymnasium in Natural Science. Complementing my strong academic performance is my ambition to be leader in analyzing politics in country and probably in the Balkans. Being part of various non-governmental organizations that promote human rights as: Young Women's Empowerment Initiative and Kosova Women's Network, I have developed the ability and attitude necessary to handle good level of academic work. Applying at Nordic-Baltic Contact Seminar in Western Balkans is valuable to me, because Erasmus has impressive reputation for providing professional development and training to new entrants. Seminar can help me in my education and future academic endeavor. Obtaining additional qualifications can formal offer many advantages: new learning aptitudes and gaining a fresh perspective while enjoying the challenges and accomplishments. Building my professional brand rests on my ability to continuously demonstrate my skills, talents, knowledge and enthusiasm; those tangible and intangible characteristics. I want the institution to utilize my skill set. I'm fluent in English.</p> <p>I look at this application as a fantastic opportunity for empowering youth in Seminar with Nordic-Baltic. Only Erasmus can bring associate with colleagues, researchers, professionals, representatives of regions.</p>

Motivation for participation in the contact seminar	As the biggest private higher education institution in Kosovo, AAB College is very interested in creating networks for capacity building for its staff and for creating possibilities for the students for potential mobility and student exchange and to give them opportunities to study in joint programs with EU established universities. This will undoubtedly benefit our college enormously and most importantly benefit our students to a great extent. Apart from creating networks with universities from the Nordic and Baltic region of Europe, the seminar is a great place to create networks for potential cooperation with universities and colleges in the region as well. The seminar is an ideal place to get contacts and most importantly learn on how other universities organizing their international cooperation which benefits the students and the institution as a whole. In the seminar we would be able to share information about our institutions and take back to institutions all the valuable experience from other institutions. At the end this would increase cooperation between our institutions in the region and the Nordic and Baltic States, and it will contribute towards higher quality of studies for our students.

Motivation for participation in the contact seminar	<p>I work for the Higher Education Institutions for long time mainly dealing with international cooperation. Kosova is very isolated country and our students and staff needs to be exposed to international practices and environments. To do so we need as much as possible to cooperation with institutions from other countries of Europe to share experiences and knowledge on different issues related development of HE Institutions.</p> <p>HE institutions in Kosovo need to reformat and reorganize courses, programs, and structures to increasingly sophisticated and market-knowledgeable students. To act globally in a competitive environment, Kosovar HE institutions must offer programs to students that will cover their needs and wishes and they can also provide interdisciplinary programs to meet the 21 century's higher education demands. So I am highly motivated and interested to participate in the seminar and meet with representative of HE Institutions from Nordic country for the possibility of starting cooperation on different projects of Erasmus plus on curriculum development, quality of learning and teaching and exchange of students and staff.</p>

Motivation for participation in the contact seminar	I have just finished the first year of my studies in the Faculty of Economics and I'm interested in studying abroad for many reasons ,but mostly because this is an amazing opportunity to expand my knowledge ,not only in the academic field, but also culturally by meeting people from different countries. I believe that being part of the Erasmus exchange program would be a memorable experience which would help me further in my studies and later in my job. Therefore, i would like to participate in the contact seminar and get more information regarding this process.

Motivation for participation in the contact seminar	<p>Starting from the IBCM's vision to become an internationally recognized center of excellence for higher vocational education, international experience is a crucial component of all IBCM's operations. Having in mind the EU integration processes in which the countries of the region are, it is of great importance for the students from this region to be well equipped with international knowledge, skills and competencies in order to prepare for the upcoming challenges for the region – EU integration, common market, internationalization, intercultural communication, understanding European values etc. Teachers and staff on the other hand, need to be able to support the students in achieving that. What IBCM is offering at the moment in terms of internationalization is:</p> <ul style="list-style-type: none"> •All study programs are offered in the English language exclusively; •Staff is hired from different countries of the Western Balkans, but also from EU and America •In addition to the national accreditation IBCM obtained accreditation from the German accreditation agency Evalag (Baden-Wurttemberg); •IBCM issues double degrees from a Danish partner institution (Lillebaelt Academy for Professional Higher Education); •IBCM is a member of the European Network for Business Studies and Languages (SPACE). Therefore IBCM is fully dedicated to maintain and enhance its international profile, and that can be achieved only through cooperation with foreign partners. This seminar should be a very good opportunity to strengthen the network and start new cooperation with partners from Nordic and Baltic region.

Motivation for participation in the contact seminar	I would like to express my interest in participating in the Nordic-Baltic Contact Seminar in Western Balkans 2015. I have recently finished my bachelor studies at the Faculty of Engineering, Computer Sciences Department at the University of Prishtina "Hasan Prishtina", in Prishtina, Kosovo. I am looking forward to graduating by January, 2016. I have chosen to apply for this seminar, because after having researched and gained information for the Erasmus + program and this seminar specifically, I came to conclude that such a format is very beneficial for my personal and professional profile by providing me with opportunities I

	<p>am seek for. Such an experience offered through this seminar is unique to me, because there is no equivalent at my home university.</p> <p>This experience is my chance to explore opportunities and possible positive outcomes that will shape my future. I especially appreciate the wide range youngsters from all over the region participating. Moreover, I consider this as a great opportunity of meeting my peers and exchange knowledge, personal and professional experiences.</p> <p>I am looking forward to continuing my master studies abroad. Having recently attended a special course on Biomedical Engineering and Technology organized by Medtronic, a well-known medical technology development company, I came to conclude that this very field is the one I am willing to continue for my master studies. Biomedical engineering is a field still to be explored in my native country but nevertheless in need for domestic experts. Such a program is offered in only a few universities, some of the most prestigious of which in the Baltic countries, such as Norway, Sweden and Finland. It would be my honor to have the chance to attend my studies in this field as a beneficiary of the Erasmus + program.</p> <p>I am confident that my experience as part of this seminar would be extremely exciting, valuable and benefiting for my overall personal and professional development.</p> <p>Thank you very much for considering my request. I look forward to your positive response.</p> <p>Yours faithfully, Oltion Ramadani</p>

Motivation for participation in the contact seminar	<p>Aleksandras Stulginskis University (ASU) is strongly interested on stimulation of students and teachers exchange with foreign universities; development of study openness and internationalisation by involving foreign teachers and researchers into academic processes. Active development of international studies in all three study cycles would benefit from participation the students and teachers from Western Balkan countries. International study programs would increase their vitality, enrich the experiences of teaching staff of ASU and partners from Western Balkans, increase the efficiency of study resources and the study internationalisation process of ASU. International study programmes in English at ASU in the field of engineering, business administration and management, agro-biotechnology could accept the exchange students from Serbia, Kosovo, Bosnia and Herzogovina, Montenegro and Albania. Supervised PhD studies in the fields of agronomy, forestry, environmental sciences, transport, mechanical and environmental engineering, economics, management and administration are possible in ASU and according partners at Western Balkan countries. The education experience and scientific achievements of Western Balkan countries universities are also very useful for ASU. Such cooperation could be realised by the using the ERASMUS exchange between programme and partner countries. ASU signed Memorandum of Understanding with some Serbian, Albanian and Bosnia and Herzogovina universities, but the contacts with those universities are very week. Besides that ASU would be interested to establish the cooperation with other Western Balkan countries and universities.</p>
