

Eiropas Komisijas sniegtā informācija -

Dear colleagues,

Agriculture is a priority for Nigeria and our colleagues in DG AGRI have had very positive meetings with the Nigerian Ministry of Agriculture and Nigerian HEIs who want to use Erasmus+ funding to support credit mobility and capacity building projects with European partners in the field of agriculture.

The following Nigerian HEIs specialise in agriculture:

- Federal University of Agriculture of Abeokuta ;
- Michael Okpara University, Umudike - Abia State ;
- University of Agriculture Makurdi – Benue State.

We strongly encourage you to disseminate this information to your HEIs in light of the current open calls for Erasmus+ KA107 and CBHE. Your support is much appreciated!
