

Development and Implementation of VET Internationalisation Strategy

Experience of Vilnius Tourism and Commerce School

By project manager Ramune Vadeikyte

How we strated. History

- First visitors, VTPVM- as receiving partner, exchanges
- Mobility projects since 2002
- Constantly growing number of mobilities
- Incoming mobilities

2015- challenged by NA to apply for Mobility Charter

Internationalization Strategy- part of Mobility Charter

First steps to develop Internationalization Strategy

- Seminars in NA
- Research of European, National and School documents
- Making up a work team to develop school internationalization strategy
- Looking for good practices of other educational institutions on the Internet

First ideas/ inspirations/ advice from outside.1.

the general strategy of the organization (which includes internationalization)

International cooperation activities in the annual plan

First ideas/ inspirations/ advice from outside.2.

Setting

Structure of Internationalization Strategy

- 1. Introduction
- 2. International experience
- 3. vision, mission and strategic changes
- 4. SWOT Analysis Strategic Conclusions
- 5. Internationalization strategy implementing activities

Quality of internationalization strategy action plan. Strengths

- Internationalization strategy action plan is properly prepared and includes not only mobility, but also other areas of development of internationalization
- provided objectives and measures comply with the strategic goals
- Provided results and their target values, implementers, implementation deadlines, and the resources needed.

Internationalization Strategy Implementing Activities

Our stenghts:

School is ready to carry out mobilities and assure their quality: has project manager, project work groups, huge international experience both as sending and receiving partner, applies ECVET.

What we should improve:

- Demand analysis of internationalization strategy must be developed to cover internal and external factors analysis in support of the interface with the labor market needs, the national and / or EU legislation analysis.
- Well think out and specify the project participants' acquired competence assessment procedures.
- Create a clear foreign language competence improvement strategy that relies not only on language skills in assessment or the services provided by partners, but also in the school created language training opportunities.

Recomendations for clear, efficient and quality-based approach to the development of sustainable European internationalization, including international mobility, the promotion of development

- Clear relation of internationalization strategy with the overall development strategy of the institution.
- Demonstrated the importance of transnational integration into other areas of the importance of the institution's activities.
- Given school Internationalization development priorities, strategic directions / goals that are consistent with the school's mission and vision.
- Presented detailed external and internal environment analysis, SWOT.
- Disclosed the compliance of Internationalization strategy with the EU strategy of internationalization and Lithuanian education policy and strategic documents, training guidelines and priorities, harmony with the objectives of the Erasmus + programme.
- Presented European Internationalization strategy and action plan to achieve strategic objectives, which
 provide not only mobility, but also other areas of the internationalization development.

Other general recomendations:

- To form a work group for the development of Internationalization strategy;
- The main priority of strategic activities- strengthening of internationalization;
- Mission, vision and strategic objectives are published on the school website.
