

## **HERMANOS AMORÓS**

Madrid

To whom it may concern;

My name is Jesús Lorente Fernández, I´m a teacher and the Coordinator in languages of Amorós School, which is one of the seventeen Marianists schools and one of the biggest private Schools in Madrid, Spain. I´m trying to get in touch with my counterpart in other Marianist School ,in order to establish an exchange program between some of the teachers interested in the improvement and achievement of the differents methodologies in certain number of subjects.

During this last year, 2015, my School has been granted with a European Union scholarship fund in order to establish a course for teachers in Dublin, in particular at St Laurence School, which belongs to the American Marianist Prefecture, through a programe called ERASMUS+ KA1. In a recent conversation holded with SEPIE, which is the official Spanish institution responsable for organizing the programme, they encouraged our Fundation “Domingo Lázaro”, the owner of all the schools in Spain, to establish a big programe which involves other schools in Europe.

This new project is about to request for a scholarship or fellowship of the European Union organization Erasmus+ through KA2, which lies in rotating teachers of our schools all over the schools involved in order to improve the way they teach in their subjects by observing and analyzing the methodology that other teachers carry out. To summarise the main information, a Drama, arts, music, science teacher of these four schools would travel, hosted and stay in the schools involved.

The programe would last 2 weeks, where certain number of teachers would go over the schools involved, and they swap between schools, so the teachers would be interchanged between them at the same time in this differents countries, what it means that a couple of teachers form Amorós school move to other schools at the same time that other teachers from the schools refered are coming to Amorós. Identically happens with the other two schools immersed in the programe.

Period of time; September 2016 first exchange, and September 2017 second exchange, and the teachers choose the school to work with, depending on the number of vacants so all the teachers immersed have a place in a different school from theirs.

I´m able to coordinate this programe and get in touch the four schools involved in order to create a job shadowing networking for two years, as a minimum, and counting on the help of English Centre S.l. which will provide us the hosting, flights and whatever supplies needed for the perfect working

So would be useful for me to write the right person and if not, please lead me to the one in charge of this programs.

Kind regards,

Jesús Lorente Fernández

Coordinator of languages.
